

sliding-block guides 123.1 therefore are not mobile. Only the normal quadruple joint version without shifting of the joint points is then available.

IN THE CLAIMS:

Please substitute for the corresponding pending claim the claim as shown rewritten below with amendments effected therein. Appendix II is attached hereto having a marked version of said claim with amendments indicated by brackets and underlining.

9. (Amended) The convertible of claim 18, wherein the multiple joint (114; 114.1) is a quadruple joint, two joint points (116, 117; 116.1, 117.1) being assigned to the lid part (104) and two further joint points (118, 119; 118.1, 119.1) being assigned to the auxiliary frame (111; 111.1).
